

PC-BSD 1.4

Work in Progress

- Built on FreeBSD 6.2 & Xorg 7.2
- Includes Flash 7 / 9(?) and out-of-box nVidia 3D support.
- Beryl implementation for 3D accelerated systems.
- New utilities and GUI's for system setup:
 - Network Manager (WiFi / Ethernet / Tray app)
 - Xorg configuration detect / setup tool
 - Add / Remove components tool (MythTV & others)
