08:00			08:00 - 09:00 DevSummit setup	08:30 - 11:30	08:00 - 18:00 <

BSDCan Thursday 2025-06-12: Tutorials and DevSummit

[illegible]

BSDCan Friday 2025-06-13: Talks

	DMS 1110	DMS 1120	DMS 1130	DMS 1160	DMS lobby	U90	
08:00						08:00 - 18:00	
							08:30 - 11:00
09:00				Quiet room	09:15 - 09:45		Coffee, tea, juice, soft drinks, water & Registration pick-up
10:00					09:15 - 16:35		
		09:45 - 10:45	Keynote: Hardware Support for Memory Hungry Applications Margo Seltzer				
11:00	11:00 - 11:50	11:00 - 11:50			11:00 - 11:50		
	ZFS Direct IO Benchmarking Pitfalls Mateusz Piotrowski	Controlled credentials transitions without privileges: mac_do(4), mdo(1) and setcred(2) Olivier Certner			Why (and how) we're migrating many of our servers from Linux to the BSDs Stefano Marinelli		
12:00					12:00 - 13:15	12:00 - 13:15	
					Get-to-know-people BoF Allan Jude	Lunch	
13:00	13:15 - 14:05	13:15 - 14:05			13:15 - 14:05		
	Automating My FreeBSD Lab: From Setup to Daily Use with Ansible & Salt Roller Angel	ABI stability in FreeBSD ShengYi Hung			A distributed filesystem for OpenBSD Rob Keizer	14:00 - 18:00	
14:00							
	14:30 - 15:20	14:30 - 15:20		14:30 - 15:20			
15:00	Adventures in porting a Wayland Compositor to NetBSD and OpenBSD Jeff Frasca	The state of 3d-printing from OpenBSD Andrew Hewus Fresh		ELF Nightmares: GOTs, PLTs, and Relocations Oh My John Baldwin			
					Coffee, tea, juice, soft drinks, water		
16:00	15:45 - 16:35	15:45 - 16:35		15:45 - 16:35			
	Automated and Distributed Testing Using TTCN-3 Hiroki Sato	Sandbox Your Program Using FreeBSD's Capsicum Jake Freeland		A History of the BSD Daemon Marshall Kirk McKusick			
17:00						(continued ↓)	
18:00							

BSDCan Saturday 2025-06-14: Talks

	DMS 1110	DMS 1120	DMS 1130	DMS 1160	DMS lobby	U90	Other
09:00					09:00 - 11:00	09:00 - 17:30	
10:00	09:45 - 10:35 Confidential Computing with OpenBSD – The Next Step Hans-Jörg Höxer	09:45 - 10:35 Hardware-accelerated program tracing on FreeBSD Bojan Novković	09:45 - 17:30	09:45 - 10:35 Enhancing Unix Education through Chaos Engineering and Gamification using FreeBSD Andreas Kirchner, Benedict Reuschling	Coffee, tea, juice, soft drinks, water		
11:00	11:00 - 11:50 Flipping Bits: Memory Errors in the Machine Taylor Campbell	11:00 - 11:50 Vox FreeBSD: How sound(4) works Christos Margiolis		11:00 - 11:50 The NetBSD Packet Filter(NPF) Emmanuel Nyarko			
12:00	12:00 - 13:15 ZFS BoF Allan Jude			12:00 - 13:15 Networking BOF David Maxwell	12:00 - 13:15 Lunch		
13:00	13:15 - 14:05 An embedded "dev kit" for EndBASIC with NetBSD Julio Merino	13:15 - 14:05 A packet's journey through pf Kristof Provost		13:15 - 14:05 Effective Bug Reports, Code Change Requests, and Conference Proposals Michael Dexter			
14:00					14:00 - 18:00		
15:00	14:30 - 15:20 Improvements to FreeBSD KASAN Zhuo Ying Jiang Li	14:30 - 15:20 porch(1): it's not what you expect(1) Kyle Evans		14:30 - 15:20 Running a root DNS server on FreeBSD – from Alpha to Now Daniel Mahoney			
16:00		15:45 - 16:35 Sleep on FreeBSD: A bedtime story about S0ix Aymeric Wibo		15:45 - 16:30 Lightning talks	Coffee, tea, juice, soft drinks, water		
17:00				16:45 - 17:30 Closing session			
18:00							18:00 - 21:30 Final Reception Lowertown Brewery
